Basic Countertop Edge Profiles

DESIGNMITERTILE.COM

1 Straight Edge

A straight edge countertop features clean, sharp lines that create a sleek and contemporary look, is versatile enough to complement various design styles, is easy to maintain, and is compatible with a wide range of materials such as granite, quartz, and laminate.

2 Quarter Round

A quarter round countertop profile features a smooth, rounded edge that adds a soft, elegant touch to any surface, enhances safety by reducing sharp corners, and is easy to clean and maintain, making it compatible with a variety of materials like granite, marble, and laminate.

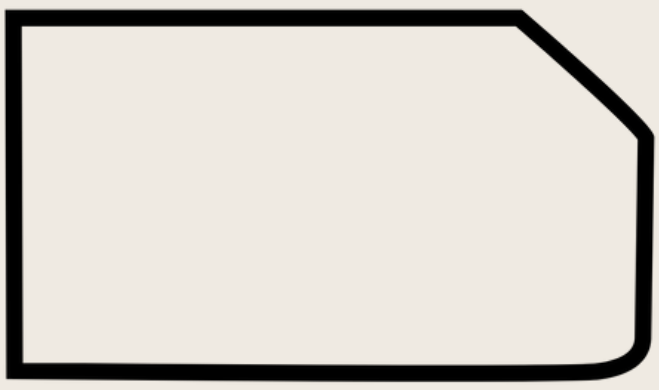
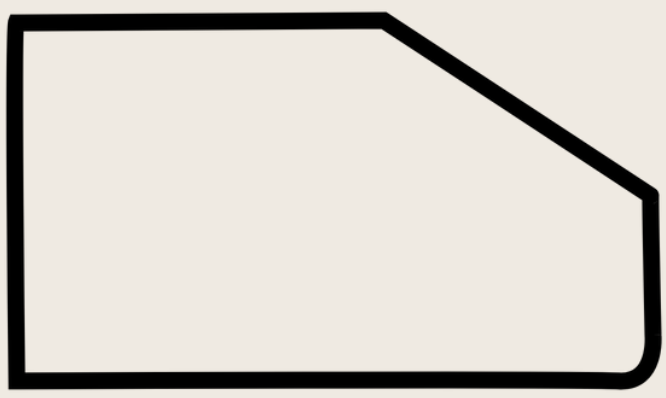
3 Quarter Bevel



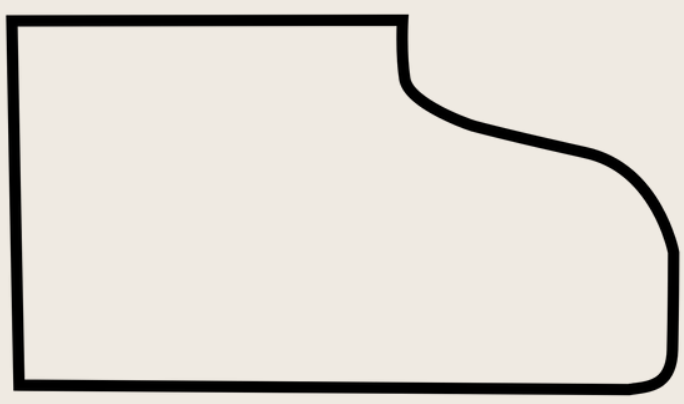
A quarter bevel countertop profile features a subtle, angled edge that adds a touch of sophistication and dimension to the countertop, enhancing its visual appeal while being easy to clean and maintain, and is compatible with materials such as granite, quartz, and marble.

4 Half Bevel



A half bevel countertop profile features a pronounced, angled edge that provides a distinctive and stylish look, offers enhanced durability and easier cleaning, and is suitable for materials like granite, quartz, and marble.

5 Ogee Edge



An ogee edge countertop profile features an elegant, S-shaped curve that adds a classic and sophisticated touch to the countertop, enhances its aesthetic appeal, and is compatible with materials such as granite, quartz, and marble.

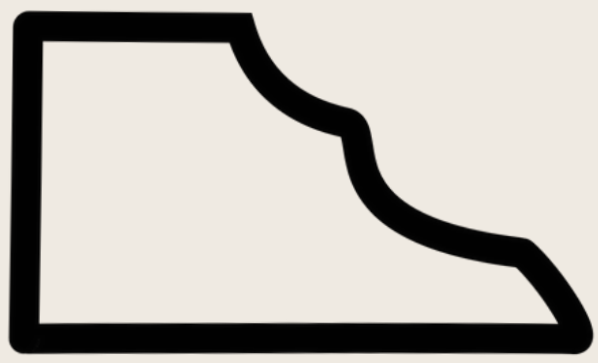
6

Cove Ogee



A cove ogee edge features a detailed, concave curve leading into an S-shaped design that adds an ornate and elegant touch to countertops, making it ideal for materials like granite, marble, and quartz.

7

Cove

A cove edge features a concave, scooped-out design that gracefully curves inward, adding a subtle yet elegant touch to countertops. This design is ideal for creating a refined look and is well-suited for materials such as granite, marble, and quartz.

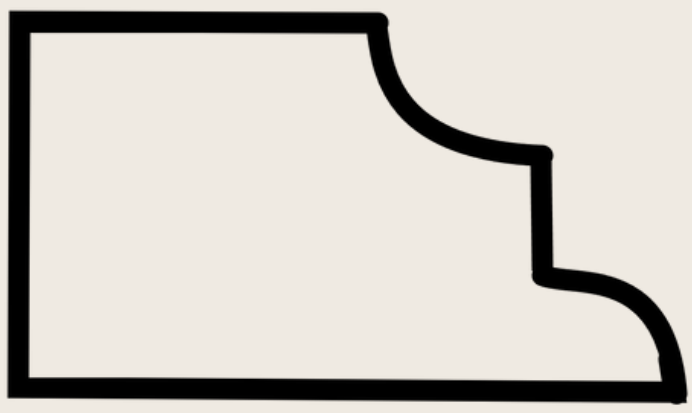
8

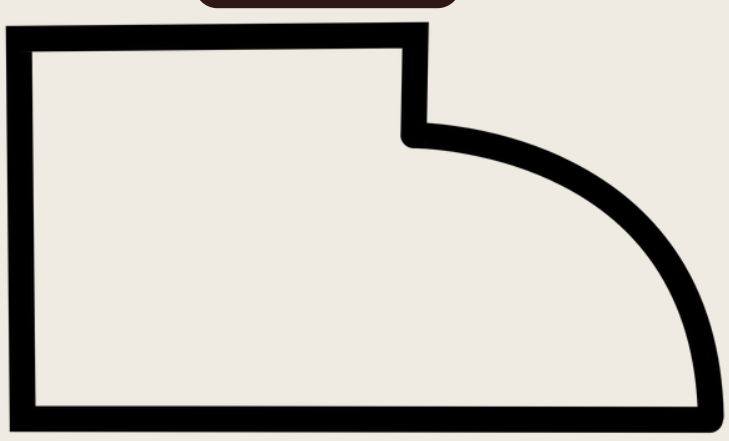
Cove Dupont



A cove Dupont edge combines the concave curve of a cove with a distinctive straight drop, resulting in a sophisticated and ornate look. This design adds a touch of elegance to countertops while offering a stylish transition between the countertop and vertical surfaces, making it a great choice for luxurious materials like granite, marble, and quartz.

9

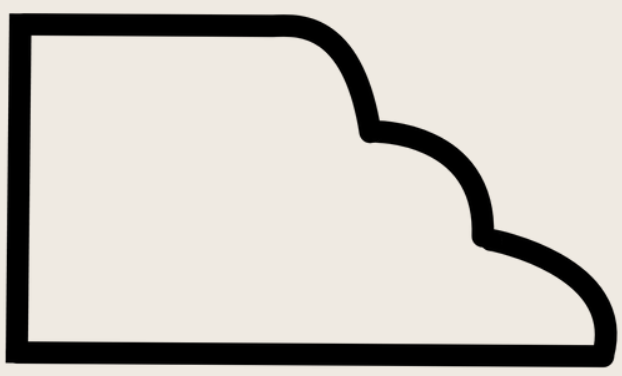
Dupont



A Dupont edge features a straight drop followed by a rounded edge, creating a luxurious and elegant profile. This design enhances the visual appeal of countertops by adding a refined touch, making it suitable for a variety of materials such as granite, marble, and quartz, while also being easy to clean and maintain.

10

Waterfall



A waterfall edge provides a striking, continuous vertical drop from the countertop down to the floor, creating a dramatic and modern look. This design seamlessly integrates with the surrounding space, offering a sleek and contemporary appearance that works beautifully with materials like granite, marble, and quartz.

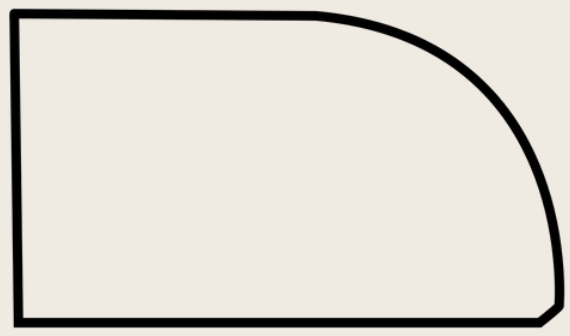
1 Demi Bullnose



A demi bullnose edge features a gently rounded curve that softens the transition from the countertop to its edge. This design adds a touch of smooth elegance and classic appeal, making it a versatile choice for various styles and materials such as granite, marble, and quartz, while also providing enhanced safety.

12 Half Bullnose

A half bullnose edge features a soft, rounded curve that provides a smooth, classic look by gently transitioning from the countertop to the edge. This design enhances both style and functionality, making it a popular choice for a variety of materials including granite, marble, and quartz, while also facilitating easier cleaning and maintenance.
